

East African Higher Education Network on Sustainable and Energy Efficient Campus Development

SUCCEED Network aims to promote East African **university campuses as “living laboratories”** for sustainability and energy efficiency, in particular by establishing a sustainable campus development platform and energy efficiency units to foster collaborative learning and promote action for energy access and efficiency.

Results

- **55 academic / technical staff trained** in **Renewable Energy, Energy Efficiency** (Technologies & Tools, Campus Policies, Audits), **Fundraising** and **Online Courses Design**
- **5 Energy Efficiency Units** created, **Good Practices** published and **Energy Audits** done on campus buildings
- **15 Online courses on Renewable Energy / Energy Efficiency**
- **Energy Round tables** held at internal, local and national levels
- Establishment of **regional SUCCEED Network** for continued **future collaboration on Energy** between East African HEIs

Impact

- **Awareness raised on Energy issues** among HEI Higher Management, academic & technical staff and the student body
- **Increased capacities on Energy** of staff and HEI graduates
- **Increased dialogue and connections** between HEIs, Society, Industry and Authorities
- **Enhancement of Regional Networking** among East African HEIs **on Energy**

Beneficiaries

HEI staff benefit from **training** and **networking** with staff in other East African HEIs

Students benefit from **new courses & skills acquired**

HEIs benefit from new **Energy Efficiency Units** & services provided

Local and National Stakeholders in the energy sector benefit from **increased dialogue & cooperation** with HEIs

Contribution to the EDULINK objectives

Capacity building and Regional integration in Higher Education through institutional networking

- **Capacities built** on Energy-related topics
- **Cooperation & Networking** increased between East African HEIs

Higher education of quality, relevant to the needs of the labour market

- New **relevant courses** on Energy topics created
- Increased **dialogue** between HEIs and the Energy sector labour market

The way forward...

More capacity building on Energy for interdisciplinary degrees

Adaptation of degrees to Energy sector labour market's needs to increase graduate employability

More international cooperation activities through the SUCCEED Network to foster collaborative education and sharing of good practices
